RE: Pleasant View Mine
Interpace Corporation
Weber County, Utah
ACT/057/003

Dear Mr. Hirschfeld:

After reviewing your June 24, 1980 letter concerning the Pleasant View Mine, The Division feels that a variance to Rule M-10(12), dealing with re-vegetation is not necessary. With the post-mining land use stated as range-land, reseeding to grasses, with a mixture of forbs and shrubs, is the accepted manner of reseeding.

The Division needs to know the seed mix proposed for revegetation of the area and for use in the test plots. It would be helpful if you could include information on stabilization procedures (ie., seed mix, rates, methods, and times of seeding).

If you have any questions, please call.

Sincerely,

THOMAS J. SUCHOSKI
ENGINEERING GEOLOGIST
